ENIGMA TO EXHIBIT AT MRO AMERICAS CONFERENCE

Participating with Oracle in Booth #101

April 20, 2010

Phoenix, AZ

BURLINGTON, Mass.---April 19, 2010---Enigma Inc., the leader in aftermarket service and support technology, will be exhibiting with Oracle® at the MRO Americas Conference and Exhibition on April 20, 2010 at the Phoenix Convention Center in Phoenix, AZ. The event will bring together aviation industry leaders from around the world to discuss issues relating to aviation maintenance, repair and overhaul.

At the conference, Enigma will demonstrate advanced solutions in the Oracle exhibition booth (#101), featuring a joint solution with the Oracle Complex MRO (cMRO) application for maintenance planning, engineering and service. The combination of Enigma InService MRO with Oracle cMRO provides maintenance planners and technicians complete, accurate and timely information at every phase of the MRO process. Specifically designed for servicing airline, aerospace and defense equipment, the Enigma-Oracle solution helps decrease maintenance turn times, increase asset availability and improve regulatory compliance.

Enigma will also be demonstrating Enigma InService Job Card Generator and Revision Manager, which streamline the process of reviewing/approving OEM and engineering maintenance changes and incorporating those revisions into ongoing maintenance plans.

Enigma has helped airlines like Japan Airlines, and KLM Royal Dutch Airlines to decrease maintenance costs, increase equipment uptime, and improve maintenance efficiency and consistency.

Quote attributable to Jonathan Yaron, president and CEO of Enigma, Inc.:

“Enigma’s technology improves all aspects of aircraft maintenance, from technical publications to digital sign-offs on job cards Enigma has helped numerous airlines and aviation shops realize substantial gains in efficiency and cost reduction.”
